Human Values and Ethics Towards Sustainable Environment

11 - 12 January 2024

Shri Rajiv Gandhi Govt. College Banda, Distt. Sagar (M.P.)

Accredited By NAAC "B" Grade

Affiliated to Maharaja Chhatrasal Bundelkhand University Chhatarpur (M.P.)

About College :

Shri Rajiv Gandhi Govt. College Banda (Sagar) MP-470335 is situated in Bundelkhand region in Sagar district of Madhya Pradesh. The college was established in 1982. The College is accredited by NAAC with B grade and registered with UGC Under 2(f) and under 12(B). It is acting as a hub for higher education in this rural and semiurban locality. A large number of UGC approved courses are being run by College in undergraduate and post graduate levels. In current session about 3200 students are studying in the college. The college has total staff of over 20 members. Various co-curricular activities through NSS, Sports etc are here to support and to develop the ethics among students. Presently, Institute is playing a significant role for promoting and increasing the higher education literacy rate in central India.

About Climate of Banda:

Being part of central region of country, its temperature & weather are almost similar to rest of the central india portions. During event days, expected temperature would be 12°C – 22°C.

About the Seminar:

Sustainable Environment is one of the most contentious topics being debated throughout the world. It has been globally accepted and recognized as a serious threat to human existence. The global community is facing considerable threats from environmental awareness, issues, challenges, climate change, and incurring considerable costs to cope with the environmental impacts. India is one of the fastest growing economies in the world, therefore, there is an imminent need to address the impact of sustainable environment on society to ensure sustainable livelihood particularly in the developing countries like India. In this backdrop, the purpose of this seminar is to provide a common platform for the legal experts, academicians, researchers and students to bring out, discuss and deliberate how the burning issue of sustainable environment is being tackled around the world, and propose solutions relevant to India. The outcome of the seminar will enhance the understanding of participants and provide policy inputs related to the theme.

- Globalize the Environmental Education so that Research scholars from different regions can communicate with each other through a common platform.
- Organize Seminar for upgradation and awareness about sustainable Environment.
- Helps students, faculty and researchers in various disciplines so that they can enhance their knowledge and awareness in different areas of research in environment.
- Cooperate with institutions of higher learning in any part of the country having objectives similar to those of the society.

Focused/Thematic area (Topics to be covered):

Human & Ethical Values toward Environment, Applied Physics and Environment, Environmental Chemistry, Material Science and Environment, Life science, Botany, Zoology, Biotechnology, Micro Biology, Climate Change, Global Warming, Bio Diversity, Eco System, Green Chemistry, Green technology, Energy Science, Agriculture Science.
